### Grundtvig Learning Partnership 2010-2012

#### Resume EWA

The women we interviewed (all more than 70 years old) have experienced fascism and war during their childhood or youth and became adults during the period of social reconstruction. These women have witnessed a crucial period in the history of Italian democracy, and their testimonies are valuable for understanding our society. The women consider a personal biography as a cultural value, and for all of us they exemplify active life.

#### Role Models

**Gigliola Garassino**  
She has confronted the painful events, a woman full of strength and generosity.

**Carmen Capatti**  
A woman who is able to combine her love of politics with the care of the family, a woman still active in volunteer work.
